

DESERT DETECTIVE

START GAME

EXIT

CHOOSE A CASE TO START

A Conversation which is used for contextual introduction

I will set out to look
for him

The suspect infiltrated the
desert just to hunt for
treasure, and important
treasures are at risk of being
stolen.

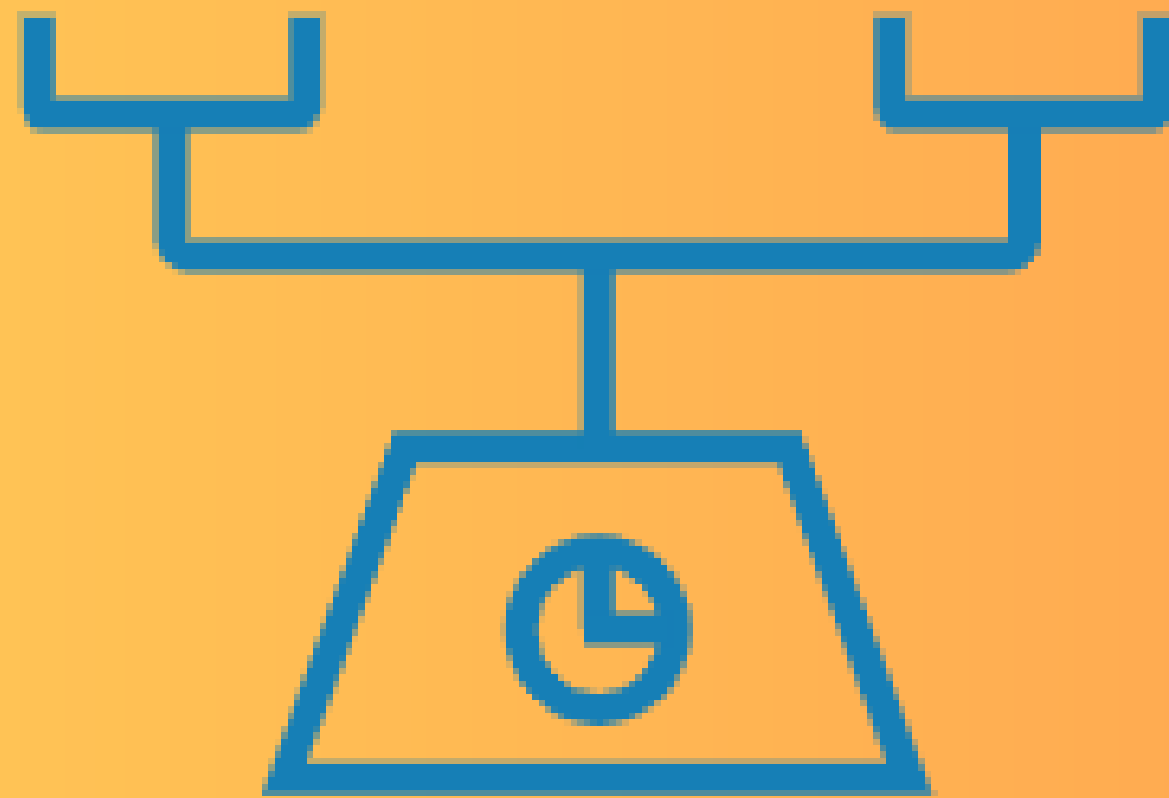

Get a map that directed the suspect' s treasure hunt location

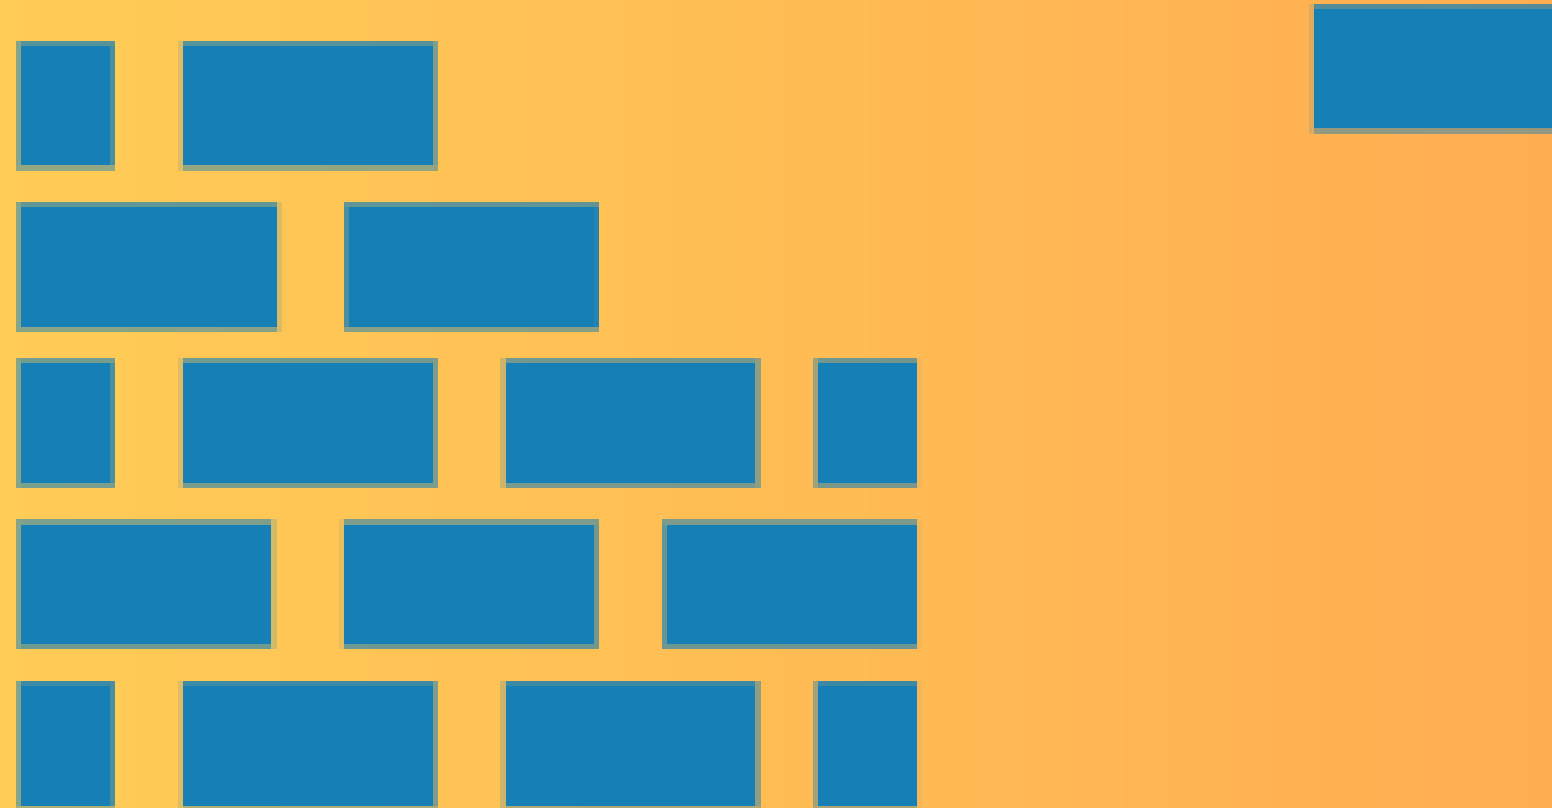

On the way to chasing the suspect, you will need to solve many checkpoints or puzzles.

For example, you need to figure out a puzzle game about metals

Sorting through a large pile of metals mixed with different qualities and densities, dividing them into two baskets, ensuring that the metal in the final two baskets has the same mass.

There are also many other types of puzzles here.

Find a brick that matches the shape so that this building does not collapse and allows you to reach higher places through it.

YOU SUCCESSFULLY SOLVED ALL THE
PUZZLES AND FOUND THE SUSPECT.

THE END

To be continued: More ideas will
be added later to improve the
connection between levels and
the game itself, and to enhance
the interest of the storyline.

CHOOSE A CASE TO START

The first case
has been solved.
